

Assemble Instructions Top Rail

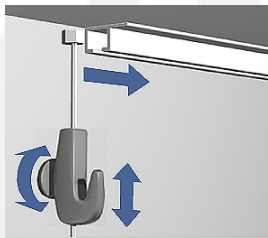

STEP 1 : Mount rail to Suspended Ceiling (If applicable)

- In case of a suspended ceiling the Top Rail is mounted to the wooden side strip.
- The special screws (3x16 round head) are slightly bigger than the hole drilled in the Top Rail. First fix the screws to the rail before mounting the Top Rail to the wooden strip.
- Then screw the Top Rail directly onto the wooden side strip.

STEP 1 : Mount rail to concrete / stone ceiling

- Determine the place where the Top Rail will be mounted.
- Mark off the drilling holes.
- Mount the rail by means of screws and plugs.

STEP 2 : Hanging systems

- Place the desired hanging systems (which are suitable for the Top Rail) into the rail.
